

JOB VACANCY – ENVIRONMENTAL CONSULTANT (BUCHAREST)

Earth & Marine Environmental Consultants Ltd (EAME) is a multi-disciplinary environmental consulting practice based in the UK. The firm has recently opened an office in Bucharest and is seeking to employ environmental and earth science graduates or post graduates.

The job would involve assisting with the growth and development of the Romanian branch of the business (based in central Bucharest), but also working on international projects in the UK, Latin America and Middle East.

EAME is a small but exciting business working in emerging markets and challenging locations across a wide range of environmental disciplines and project types including Environmental Impact Assessment (EIA), polluted land and river clean-up, waste management, environmental risk assessment and resource efficiency studies.

If you would be interested in joining a young growing business, working on a range of exciting environmental projects both at home and internationally whilst receiving a competitive salary and having a long-term career opportunity please send your CV and a cover letter explaining why you are interested in this post to david.wells@eame.co.uk

Candidates must live in Bucharest, have a good level of written and spoken English and hold or be able to obtain a passport (and be prepared to travel both regionally and internationally).
